## SUBJECT & ALLOTMENT CRITERIA IN CLASS XI

In class XI, the following subject options are being offered in the different streams allotted to the students. Provisional admission to Class XI would be on the basis of the allotment criteria being given to you. The Mid Term and the Pre Board Result would be taken into consideration for the Provisional Stream Allocation and the child will have to continue with the same stream till May. Due weightage would be given to Internal Assessment, behaviour and conduct, sports/cultural excellence at National and International Level (Past three years) for the provisional admission. However, any change in the Stream Allotment – would be considered/ made, if required, only after the declaration of the Board Result. The classes for Optional Subjects mentioned in the circular would run only when there is a minimum required strength for the class, as per the CBSE norms.

Thanks

## SCIENCE STREAM

### (A) Science PCM Group

(English, Physics, Chemistry, Maths) &  
Any one from the following subjects

- i. Computer Science
- ii. Engineering Graphics
- iii. Informatics Practices
