"Happiness is when what you think, what you say, and what you do are in harmony."

Gandhism: A vision that transformed generations

Let's spread peace

The world celebrates Gandhi Jayanti, the birth anniversary of one of the greatest leaders in Indian history, whose actions are still inspiring the world with his message of peace and power of simple living and kind thinking. His years of teachings are really the need of the hour. As nations, as leaders, as educators and as individuals, we need to imbibe his feelings of patriotism, his respect for the values and laws of a nation and love for humanity. Our children must try and learn about Gandhiji's teachings, and understand that even small actions, like being kind to a classmate or taking care of your environment, is an important step towards making the world a better place to thrive in.
